S.J. Rafferty COMPANY, INC.

Manufacturers represented in Maryland, Washington DC and Virginia

Accutrol
www.accutrolllc.com

- Electronic airflow control valves (AccuValves) for critical environments
- Fume hood controls
- VorTek digital airflow measurement for fan inlets & ducts (vortex shedding)
- IAQ-Tek outdoor airflow measurement system
- Bladder type pneumatic airflow control valves (Pneumavalves)

Barcol-Air
www.barcolairusa.com

- Radiant waves, modules, extrusions and ceilings
- Active and passive chilled beams

Clarage
www.clarage.com

- Tunnel ventilation fans (centrifugal, 100% reversible axial fans and jet fans)
- Industrial and mechanical draft fans (centrifugal and axial)

Coils

- Cooling, heating and heat recovery coils by leading manufacturers
- Direct replacement coils – Optional split coil construction
- Cooney Freeze Block Coils

Composite Air Design (C.A.D.)
www.compositeairdesign.com

- Custom FRP air handling units, plenums and enclosures
- Lifetime warranty against corrosion

DuraSystems
www.durasystems.com

- No field-weld laboratory exhaust ductwork pressure decay tested to ASME N510
- No field-weld NFPA 96 grease duct systems
- UL listed fire and blast resistant ductwork – No wrap required
- Fire enclosures, blast enclosures and underground corrosion resistant

Envirco
www.envirco-hvac.com

- MAC 10 Series Fan Filter Units (FFU)
  - Standard or room-side replaceable (RSR or RSRE)
  - Constant or variable airflow
  - AC or EC motors (ECM)

Filtration Group
www.filtrationgroup.com

- Bag-In/Bag-Out (BIBO) containment filtration housings/systems
- Bubble-tight isolation dampers
- ASHRAE, HEPA and HEGA filters, frames and housings
- Ultra-low pressure drop filters
- Cleanroom filtration equipment

GoFog Inc.
www.gofoginc.com

- Humidification and evaporative cooling systems utilizing pump units and water atomizing fog nozzles
- Optional water treatment systems
- No compressed air required

Ingenia
www.ingeniatechnologies.com

- Custom and semi-custom indoor and outdoor AHUs
- State-of-the-art knockdown construction for site-built projects
- Field assembly, testing and startup services available

Konvekta
www.konvekta.ch

- High-performance energy recovery system
- Guaranteed performance / energy savings
- Remote performance monitoring

M.K. Plastics
www.mkplastics.com

- High plume dilution laboratory exhaust fans (Axijets) – FRP or coated steel
- Corrosion-resistant FRP fans, plenums and dampers
- Perchloric acid fume hood exhaust systems

Systemair
www.systemair.com

- Demand control ventilation fan systems for parking garages

Thermotech
www.thermotech-usa.com

- Energy recovery wheels for new installations
- Repair or replacement of existing energy recovery wheels
- Free inspections and estimates
- Turnkey retrofit service available

Twin City Fan & Blower
www.tcf.com

- Complete line of commercial and industrial fans
- Widest range of laboratory exhaust fans available

Vibro-Acoustics
www.vibro-acoustics.com

- HVAC silencers, industrial silencers and acoustical louvers
- Noise control and vibration isolation roof curbs
- Acoustical enclosures
- Double wall panels for plenums, enclosures, barriers and built-up AHUs
- Free Silencer Application and Selection Services (Acoustical Analysis)
